### **GENTRY MILLS CAPITAL PARTNERS WITH ALTIGO**

*The real estate investment firm is partnering with the subscription document management platform.*

Altigo, the document management platform for alternative investment subscription and compliance documents, recently announced that Gentry Mills Capital programs will be available on their platform moving forward, issuing the following statement:

“Real estate investment firm Gentry Mills Capital has signed with Altigo, expanding the pool of asset managers on the platform and making investing in alts easier for the 200+ transactional broker-dealer and RIA firms that use Altigo. In partnering with us late last year, Gentry Mills had the distinction of being the 50th sponsor in 2022 to sign with Altigo.

Altigo integrates all aspects of alternative investment subscription and compliance, while significantly reducing not-in-good-order (NIGO) errors and other headaches. The platform will help Gentry Mills manage paperwork and make their real estate investment offerings available in a single, white-labeled portal.

**From Gentry Mills President, Billy Glass: ‘We’re excited about our partnership with Altigo and the positive impact it will have on our processes, especially in terms of making things more convenient for our clients who are financial advisors. Any tool that makes us more accessible or user friendly to our clients is a tool we want to utilize.’**

Altigo allows asset managers to invite their distribution partners to their own branded portal on the platform to view available offerings, or to add their offerings to their partners’ portals. In either case, Altigo streamlines the alts investment process through the use of digital workflows and by bringing the process and all of its participants under one virtual “roof.”

Altigo Chief Revenue Officer Mat Dellorso said, ‘Altigo’s scalable subscription technology and compliance services for alternative investments are pillars supporting an overall mission to increase transparency, efficiency, and access to alternative investments for issuers and advisors. We welcome Gentry Mills to the platform and look forward to collaborating with their team on making their offerings easy to access and subscribe to.’”

*\*This is not intended to be used to make an investment decision and is not a description of all the material factors an investor should consider before investing. Prior to making any investment decision, prospective investors should carefully review the related Private Placement Memorandum (the “PPM”). An investment in our programs is suitable only for investors of substantial means who have no need of liquidity in their investment and involves a substantial degree of risk. The PPM describes certain material factors to consider before making an investment, including conflicts of interest and compensation to affiliates.*
